SUMMARY

I'm an enthusiastic and dedicated Full Stack Web Developer with practical experience in PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, and TailwindCss. I specialize in building dynamic, responsive, and user-friendly websites, with a strong focus on clean code and efficient backend logic. I've worked on various real-world projects, including blog systems, login/register portals, chat apps, and admin dashboards. My work often involves using AJAX for seamless user interactions and MySQL for efficient data management. I enjoy learning new tools and improving my skills continuously to keep up with modern web development trends.

PROFESSIONAL EXPERIENCE

Full Stack PHP Developer (Intern)
Hidaya Institute of Science and Technology (HIST), Jamshoro
Feb 2025 – Present

- Developing Online-Blogging-Application using PHP, MySQL, JavaScript, HTML, and CSS Bootstrap.

- Designed and implemented modules like login/register systems, blog management, chat applications, and email box systems.

- Used AJAX for dynamic interactions such as live search, dependent dropdowns, and real-time chat functionality.

- Built admin dashboards with user role management, activation/deactivation features, and login tracking using file-based logs.

- Applied Bootstrap for responsive and modern UI designs.

PROJECTS

- **Real-Time Crowd Anomaly Detection System (Final Year Project)**
- Developed an AI and Deep Learning-based system using YOLOv8 for detecting illegal actions in crowds in real-time.

- **Blog Management System**
- Built a complete blogging platform with user registration, login, role-based dashboards (admin, editor), and CRUD operations for posts.
- Implemented pagination, category management, and user feedback features using PHP, MySQL, and Bootstrap.

- **Group Chat Application**
- Developed a PHP-based group chat system with login, online status tracking, and AJAX-powered real-time messaging.
- Stored chat history in MySQL and ensured smooth multi-user communication.

EDUCATION

Bachelor of Science in Computer Science (BSCS) University of Sindh
| Dec 2024

SKILLS

- **Languages & Frameworks:** PHP, JavaScript, HTML5, CSS3

- **UI/UX & Design:** Tailwind, Bootstrap

- **DevOps & Tools:** Git, GitHub, GitHub Actions,

- **Databases:** MySQL.
